SUPREM fit All-in-One briefs

The SUPREM fit All-in-One briefs offer an effective solution for managing **moderate to severe incontinence**. With a high level of absorption, the SUPREM fit all-in-ones provide the users anti-leakage security and optimal comfort. They are particularly recommended for people with limited mobility or confined to bed.

Product advantages

Breathable

Waterproof back sheet that enables the air to flow to maximise skin integrity.

No leakage

Hydrophobic legs cuffs prevent sideways leakage.

More discrete

Quiet polyethylene back sheet limits awkward noise helping to preserve the users' dignity.

Wetness indicator

The wetness indicator will turn blue in contact with urine and indicates when the pad should be changed for maximum comfort.

More absorbency

Double absorbent core in the centre of the pad to optimise absorbency level.

Odour control

New generation Super absorbent Polymer : maximizes the absorbency level and neutralises odours.

Wetback

The acquisition layer improves the rate of absorption, greatly reducing the risk of leakage and any potential feeling of wetness.

Hypoallergenic

The SUPREM range has been tested under dermatological conditions with the results proving the pads to be hypoallergenic.

Easy identification

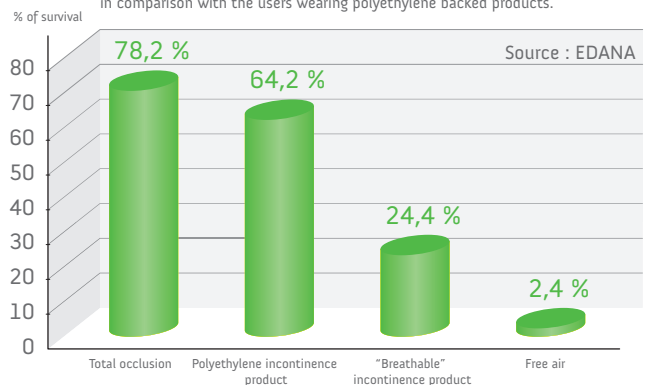

Colour code / Absorption level

All packs and individual pads are colour coded to clearly indicate the absorbency level of the product.

Survival of the Candida Albicans on human skin under incontinence management (Source: EDANA)

This study shows that the number of infections by Candida Albicans has been reduced by 50% among the users wearing breathable backed products in comparison with the users wearing polyethylene backed products.

SUPREM **fit** All-in-One briefs

A range adapted to all types of incontinence
