EN This catalogue is meant to be a guide for your job. Not all the items available in our storehouse are presented in this catalogue. We are at your disposal for any further technical and commercial information you might need. MORETTI is a Company with Certified Quality Management System in accordance with ISO 9001:2008 Quality Standards and UNI EN ISO 13485:2004. All the medical devices presented in this catalogue fully comply with EEC directive 93/42 concerning medical devices. The MORETTI logo as well as MOPEDIA, EASYRED, LEM, CHIMO, KYARA, LOGIKO, DIMED, ARDEA, SKEMA, LEVITAS and GRADO marks are registered trademarks belonging to MORETTI S.p.A. Any illegitimate use and not authorized by MORETTI S.P.A. of the mentioned marks is prohibited. The items in this catalogue could be modified without notice to improve their quality and technical features. All the products marked with MORETTI's own logos are guaranteed by MORETTI itself. The terms are given on the coupon inside the packaging. All the other products are guaranteed by their manufacturers whose terms are supposed to be accepted. Products returned for assistance with MORETTI's consent are considered under guarantee only if sent together with the warranty coupon and a copy of the sales document or receipt. MORETTI will otherwise apply the standard rates for assistance. Items returned for servicing must be authorized and sent free of charge with documentation. The orders can be dispatched partially according to the stock availabilities. All the products presented in this catalogue are available unless stocks are finished. Any delay could not lead to complaints, claim for damages, or justify the cancellation of the order. Please look at the Price-List in force to check the Sales Conditions. . You can check any news, Exhibitions and events on our website www.morettispa.com

F Ce catalogue est un guide pour votre travail. Tous les produits disponibles en stock ne sont pas inclus dans ce catalogue. Donc nous sommes à votre entière disposition pour toutes les informations techniques et commerciales que vous puissiez être utiles. MORETTI S.p.A. a le système certifié en conformité à la directive UNI EN ISO 9001:2008 et UNI EN ISO 13485:2004. Tous les produits médicaux présents dans ce catalogue sont conformes à la directive communautaire 93/42/CEE. Le logo MORETTI, les marques MOPEDIA, EASYRED, LEM, CHIMO, KYARA, LOGIKO, DIMED, ARDEA, SKEMA, LEVITAS et GRADO sont déposés, ils sont des propriétés de la MORETTI S.p.A. Il est défendu de les utiliser de façon impropre, sans l'autorisation de la MORETTI S.p.A.. MORETTI S.p.A. retient la faculté d'effectuer sans préavis des modifications à ses produits pour développer leurs qualités techniques et esthétiques. Les produits marqués MORETTI sont accompagnés de leur propre garantie. Les coupons avec les conditions de garantie sont compris dans l'emballage de chaque produit. Concernant les autres produits, on accepte les conditions de garantie de chaque fabricant. Les produits en retour pour réparation (après l'autorisation de la MORETTI) seront considérés en garantie seulement s'ils sont accompagnés du coupon de garantie et de la copie de la facture. Autrement la MORETTI peut appliquer les tarifs d'assistance technique. Les produits dans le catalogue sont disponibles au dépôt sauf épuisement de stock. Des retards éventuels ne sont pas contestables ni sujets à demande d'indemnisation. Ils ne peuvent pas justifier l'annulation de la commande. Les commandes reçues peuvent être expédiées partiellement selon la disponibilité en dépôt. En référence aux conditions de vente, consultez la liste de prix actuelle. Concernant les exhibitions, événements et nouvelles extra catalogue consultez le site www.morettispa.com.

ES Este catálogo es una guía para Su trabajo. El catálogo no lleva todos los artículos disponibles en nuestro almacén. Estamos a Su disposición para cualquier información técnica y comercial Ustedes puedan necesitar. MORETTI S.P.A. tiene certificación conforme a la normativa UNI EN ISO 9001:2008 y UNI EN ISO 13485:2004. Todos los productos médicos representados en este catálogo son conformes con la directiva comunitaria 93/42/CEE.

El logo MORETTI, las marcas MOPEDIA, EASYRED, LEM, CHIMO, KYARA, LOGIKO, DIMED, ARDEA, SKEMA, LEVITAS y GRADO son marcas registradas pertenecientes a MORETTI. Es prohibida cada utilización impropia o no autorizada por MORETTI S.P.A. MORETTI S.p.A. tiene el derecho de modificar rasgos técnicos o exteriores de sus productos para mejorar sus calidades sin previo aviso. La garantía MORETTI es válida para todos los productos con su marca. Las condiciones de garantía se encuentran en el cupón al interior de cada producto. Los otros productos llevan garantía de su productor, y se aceptan como válidas sus condiciones. Los productos devueltos (después de autorización MORETTI), serán considerados en garantía solamente si vienen con copia del documento de venta o factura relativa. De lo contrario, MORETTI S.P.A. va a aplicar los precios por el asistencia técnica. Los artículos del catálogo son disponibles en el almacén excepto agotamiento del stock. Los pedidos pueden enviarse parcialmente también, según las disponibilidades del almacén. Retrasos eventuales no pueden causar contestaciones, solicitudes de resarcimiento ni justificar el anulación del pedido. Las condiciones de venta se encuentran en la lista de precios. Ferias, novedades sobre los productos y informaciones varias se encuentran en la página web www.morettispa.com.

P Esse catálogo é um guia para o seu trabalho. Nem todos os produtos disponíveis nos nossos depósitos estão presentes nesse catálogo. Portanto estamos a sua completa disposição para quaisquer informações técnicas e comerciais que lhe possam ser úteis. A MORETTI S.p.A. é uma empresa com sistema certificado em conformidade à normativa UNI EN ISO 9001:2008 e UNI EN ISO 13485:2004. Todos os dispositivos médicos presentes nesse catálogo são conformes à diretiva comunitária 93/42/CEE. O logo MORETTI, as marcas MOPEDIA, EASYRED, LEM, CHIMO, KYARA, LOGIKO, DIMED, ARDEA, SKEMA, LEVITAS e GRADO são marcas registradas propriedades da MORETTI S.p.A. É proibido todo uso impróprio e não expressamente autorizado pela MORETTI S.p.A.. A MORETTI S.p.A. tem o direito de modificar detalhes técnicos ou exteriores dos seus produtos sem pré-aviso, para melhorar as suas qualidades. A garantia MORETTI é válida para todos os produtos com a sua marca. As condições de garantia se encontram no cupom no interior de cada produto. Os outros produtos têm a garantia de cada produtor; Aceitam-se como válidas as suas condições. Os produtos devolvidos (após a autorização da MORETTI) serão considerados em garantia somente com o cupom do produto e a cópia da nota de venda ou fatura. Caso contrário, MORETTI S.P.A. vai aplicar as tarifas referentes à assistência técnica. Os produtos do catálogo estão disponíveis nos nossos depósitos salvo esgotamento de estoque. As encomendas podem ser enviadas também parcialmente, de acordo com a disponibilidade dos produtos. Eventuais atrasos não podem causar contestações, pedidos de indenização nem justificar o cancelamento da encomenda. As condições de venda encontram-se na tabela de preços. Feiras, novidades sobre os produtos e várias outras informações estão na página web www.morettispa.com.

EN SLINGS

F SANGLES

ES ARNESES

P CESTAS DE TRANSFERÊNCIA

EN Slings for all kind of patient lifts. Equipped with positioning handles and partially padded. Positioning rings. Made in polyester 100%. They can be in Strongtex or Slipstex. Strongtex is a mesh, strong, breathable and suitable for water contact. Slipstex is a strong, breathable, waterproof fabric and it allows the patient to slip easily. The slings are provided with a label showing: maximum loading weight, UNI EN ISO 10535 norms, lot and manufacturing date, product code and washing instructions. Maximum loading weight: 250 kg.

F Sangles universelles, avec des poignées qui permettent de positionner le patient. Points d'appui rembourrés. Anneaux pour positionner la sangle de façon symétrique. Les sangles sont en 100% polyester: tissu Slipstex ou tissu filet-Strongtex. Strongtex est un tissu filet résistant, micro-aéré et apte au contact avec l'eau. Slipstex est un tissu durable, micro-aéré, imperméable et permet au patient de glisser facilement. L'étiquette de chaque sangle indique: poids maximum du patient, la norme UNI EN ISO 10535, numéro de lot et date de fabrication, la référence du produit et les instructions de nettoyage. Poids maximum du patient: 250 kg.

ES Arnese para cualquier tipo de grúa, con asas que ayudan a posicionar el paciente. Parcialmente acolchados. Anillos para colocar el arnes simétricamente. En poliéster 100%. Pueden ser en Strongtex o Slipstex. Strongtex es un tejido de red, resistente, transpirable y adecuado para el contacto con el agua. Slipstex es resistente, transpirable, impermeable y permite al paciente de deslizar fácilmente. Una etiqueta indica: peso máximo del paciente, normas UNI EN ISO 10535, lote y fecha de fabricación, referencia del producto y instrucciones para lavar. Peso máximo del paciente: 250 kg.

P Cestas de transferência para qualquer tipo de grua de elevação, com alças que ajudam a posicionar o paciente. Partes reforçadas almofadadas. Anéis para posicionar a cesta simetricamente. As cestas são em 100% poliéster: em tecido- Slipstex ou rede-Strongtex. Strongtex é um tecido em rede, resistente, respirável e adequado para o contato com água. Slipstex é um tecido resistente, respirável, impermeável e permite que o paciente deslize facilmente. A etiqueta de cada cesta indica: peso máximo do paciente, normas UNI EN ISO 10535, número de lote e data de fabricação, referência do produto e instruções de lavagem. Peso máximo do paciente: 250 kg.

EN ELECTRIC BATH TUB LIFT

F ÉLEVATEUR DE BAIN ÉLECTRIQUE

ES SILLA DE BAÑERA ELÉCTRICA

P CADEIRA DE BANHO COM ELEVAÇÃO ELÉTRICA

EN Bath lifter for people who have difficulty getting in and out of the bath. The lift can lower the person and lift her up again thanks to an actuator working at a low voltage. Made in stainless material, it is foldable and portable. Easy to use thanks to the remote control. Its automatic safety system will not allow passengers to be lowered unless there is enough battery charge to lift them back up again. The backrest is reclining up to 40°. It allows a comfortable bathing. When ready, the lift raises the backrest upright to lift the person up again.

F Ce siège de bain électrique permet de descendre et de remonter de la baignoire. Il fonctionne par un moteur électrique à basse tension. Entièrement en matériel inoxydable. Pliable et portable. Facile à utiliser grâce à la télécommande. Blocage automatique de sécurité, qui empêche le siège de descendre s'il n'y a pas assez d'énergie pour remonter. Angle du dossier jusqu'à 40° qui permet une confortable immersion. Au moment de l'élévation le siège retourne en position verticale.

ES Silla de bañera eléctrica para personas con dificultades a descender y salir de la bañera. La silla de bañera eléctrica puede bajar y subir el usuario gracias a un motor con bajo voltaje. Hecho en material inoxidable, es plegable y portátil. De fácil utilización gracias al mando a distancia. Un sistema de seguridad automático no permite a la silla de bajar si no hay carga suficiente para volver a subir. La inclinación del respaldo llega a los 40° y permite bañarse con mucho confort. Cuando la silla vuelve a subir, el respaldo se posiciona en vertical.

P Cadeira de banho com elevação elétrica para pessoas com dificuldades para entrar e sair da banheira. A elevação e a descida são efetuadas através de um motor de baixa tensão. Cadeira inteiramente feita de material inoxidável. Dobrável e portátil. Fácil de usar graças ao controle remoto. Bloqueio de segurança automático, que não permite que o assento desça se não houver energia suficiente para subir de volta. O ângulo do encosto até 40° consente uma confortável imersão; no momento da elevação o encosto volta em posição vertical.

RS900

Maximum loading weight: 136 kg

TECHNICAL FEATURES

A - Adjustable seat height from 6,5 to 42cm

B - Backrest height from 72 to 103 cm

C - Seat width without wings 44 cm

Seat width with wings 70 cm

D - Seat depth 46 cm

E - Backrest width 40 cm

F - Backrest height 54,5 cm

Total weight (with remote control) 14 kg

Batteries Ni-MH/14.4V/1300mAh

Remote control protection IP67

Actuator protection IP66

OPTIONAL

RS901

TRANSFER AID

Transfer aid to move from the seat to the bath tub edge. It has a moving and revolving base - 360° rotation. The seat is covered by a non-slip cushion.

EN Neoblow 8200 is recommended for prevention and treatment of decubitus sores of stage IV. The mattress is made up of 20 interchangeable cells and a foam layer 21 density, class I (optional). It can be used without an additional mattress. It is provided with a nylon/PU cover waterproof and perspiring. The turbine compressor has a digital control and a low pressure audio alarm. The PULSATING function offers 3 different pressure level massage (head, body, legs). The STATIC and AUTOFIRM functions stop the ALTERNATING and PULSATING functions and make it a normal mattress. The base of the mattress is equipped with anti-slipping mats for safety. The CPR valve allows a quick air release for resuscitation.

FR Le Neoblow 8200 est conseillé pour la prévention et le traitement des escarres de stade IV. Le matelas est composé de 20 éléments inter-changeables et base en mousse de densité 21, classe I, en option. Ce n'est pas nécessaire l'utilisation d'un matelas de base. Couverture imperméable et micro aérée en nylon/PU inclue. Compresseur à turbine, contrôle digital. Alarme sonore en cas de chute de pression. La fonction PULSATING propose 3 différents niveaux de pression (tête, tronc, jambe). Les fonctions STATIC et AUTOFIRM arrêtent les fonctions ALTERNATING et PULSATING transformant le matelas en un matelas standard. Base du matelas antidérapante. La soupape CPR permet un dégonflage immédiat du matelas pour la réanimation urgente.

ES El sistema Neoblow 8200 se utiliza como prevención y tratamiento contra las escaras de Grado IV. El colchón tiene 20 celdas intercambiables y base de foam de densidad 21, clase I (opcional) y no necesita un colchón adicional. Viene con una funda en nylon/PU impermeable y traspirable. El compresor de turbina con control digital tiene un alarma audio de baja presión. La función PULSATING ofrece 3 niveles de presión diferentes (cabeza, tronco, pierna). Las funciones STATIC y AUTOFIRM bloquean las ALTERNATING Y PULSATING y el colchón se vuelve en un colchón normal. Base del colchón antideslizante. La válvula CPR permite desinflar rápidamente el colchón en caso de reanimación urgente.

PT O Neoblow 8200 é indicado para prevenção e terapia contra as escaras de estágio IV. Com 20 elementos permutáveis e base de espuma de densidade 21, classe I (opcional). Não há necessidade de ser utilizado com um colchão adicional. Capa inclusa em nylon/PU impermeável e transpirável. Compressor a turbina com controle digital, alarme sonoro em caso de baixa pressão. A função PULSATING fornece 3 diferentes níveis de pressão (cabeça, tronco, pernas). As funções STATIC e AUTOFIRM bloqueiam as funções ALTERNATING e PULSATING, transformando o colchão em um colchão normal. Base do colchão antideslizante. A válvula do CPR permite o esvaziamento rápido do colchão em caso de reanimação urgente.

EN Neopro 10000 is recommended for prevention and treatment of decubitus sores of stage IV. The mattress has a cell-in-cell design which is a valid support in case of power outages and it can be used without additional mattress. The STATIC and AUTOFIRM functions stop the alternating function and make it a normal mattress. Thanks to the SEAT INFLATE function, the mattress pressure can increase of 20% to support any position change. The compressor is equipped with low pressure visual and audio alarm. The base of the mattress is equipped with anti-slipping mats for safety. The cells on the upper part of the mattress have a pillow function for the patient's comfort, as they are not working with the alternating system. The CPR valve allows a quick air release for resuscitation.

FR Le Neopro 10000 est conseillé pour la prévention et le traitement des escarres de stade IV. Ce n'est pas nécessaire l'utilisation d'un matelas de base. Système cell-in-cell qui assure un support minimum en cas de panne de courant. Les fonctions STATIC et AUTOFIRM arrêtent la fonction alternating transformant le matelas en un matelas standard. Fonction SEAT INFLATE qui augmente la pression du matelas autour de 20% dans les zones centrales, en aidant le patient à changer de position. Compresseur avec alarme visuelle et sonore en cas de chute de pression. Base du matelas antidérapante. Les éléments de la partie supérieure du matelas simulent la douceur et assurent la stabilité d'un coussin en n'utilisant pas le système alterné. La soupape CPR permet un dégonflage immédiat du matelas pour la réanimation urgente.

ES El sistema Neopro 10000 se utiliza como prevención y tratamiento contra las escaras de Grado IV. No necesita un colchón adicional. El colchón tiene un diseño "celda en celda" que ofrece un válido apoyo en caso de corte de electricidad. Las funciones STATIC y AUTOFIRM bloquean la función alternating y el colchón se vuelve en un colchón normal. Gracias a la función SEAT INFLATE, la presión del colchón en la zona central aumenta en un 20%, apoyando el cambio de posición. El compresor tiene una alarma visual y audio de baja presión. Base del colchón antideslizante. Las celdas de la sección superior del colchón funcionan como almohada por el confort del paciente, no utilizando el sistema alternante. La válvula CPR permite desinflar rápidamente el colchón en caso de reanimación urgente.

PT O Neopro 10000 é indicado para prevenção e terapia contra as escaras de estágio IV. Não há necessidade de ser utilizado com um colchão adicional. Câmaras de ar duplas "cell-in-cell", que ajudam em caso de falta de corrente elétrica. As funções STATIC e AUTOFIRM bloqueiam a função alternating, transformando o colchão em um colchão normal. Função SEAT INFLATE, que aumenta a pressão do colchão por volta de 20% nas zonas centrais, ajudando o paciente a mudar de posição. Compressor com alarme visual e sonoro em caso de baixa pressão. Base do colchão antideslizante. Os elementos da seção superior do colchão funcionam como travesseiro para o conforto do paciente, não utilizando o sistema alternativo. A válvula do CPR permite o esvaziamento rápido do colchão em caso de reanimação urgente.

DM430

TECHNICAL FEATURES

Dimensions: mm 82x69x66h**Power source:** 2 AAA batteries 1,5 V**Weight:** (without batteries) 120 g**Integrated cuff****Shell case****Oscillometric reading method**

SEMI AUTOMATIC

EN One touch operation button, manual inflation and automatic deflation. Beeping reminder function. Last reading recall. Systolic, diastolic values and pulse rate. Automatic turn-off.

F Une touche unique en facilite l'usage. Gonflage manuel et dégonflage automatique. Un signal acoustique guide l'utilisation. Mémoire de la dernière mesure. Visualisation de la pression systolique, diastolique et des pulsations cardiaques. Extinction automatique.

ES Funciona apretando un sólo botón. Inflado manual y desinflado automático. Signal sonoro. Memoria del última medida. Visualización de sistólica, diastólica y pulsación. Se apaga automáticamente.

P Funciona apertando um único botão. Enchimento manual e esvaziamento automático. Um sinal sonoro guia a utilização. Memória da última medição. Visualização da pressão sistólica e diastólica e dos batimentos cardíacos. Desliga-se automaticamente.

TECHNICAL FEATURES

ES TENSÍOMETRO ANEROIDE 1 TUBO - DIGITAL-ELECTRÓNICO
P ESFIGMOMANÔMETRO ANERÓIDE PALMAR- DIGITAL- ELETRÔNICO

EN Electric inflation, manual deflation. Values visualized both on the scale and on the digital display. By dialing "R" you can memorize systolic and diastolic pressure. When the "SYS" and "DIA" symbols light up, you can recognize the pulsations using the optional stethoscope. Automatic turning off after 1 minute without signal.

F Gonflage électrique, dégonflage manuel. Affichage des valeurs sur le cadran et sur l'écran numérique. Vous pouvez mémoriser les pressions systoliques et diastoliques en appuyant sur la touche « R ». Lorsque les symboles « SYS » et « DIA » s'allument, vous pouvez identifier les pulsations cardiaques en utilisant le stéthoscope en option. Extinction automatique après 1 minute sans signal.

ES Inflado eléctrico y desinflado manual. Los valores se visualizan en el manómetro digital y en la pantalla al mismo tiempo. Apretando el botón "R" se memorizan la presión sistólica y diastólica. Los símbolos "SYS" y "DIA" se encienden y ayudan al usuario a reconocer las pulsaciones a través del estetoscopio (opcional). Se apaga automáticamente después de 1 minuto sin utilizar.

P Enchimento elétrico e esvaziamento manual. Os valores são visualizados no manômetro digital e no display contemporaneamente. Memorização da pressão sistólica e diastólica através do botão "R". Quando os símbolos "SYS" and "DIA" se iluminam, ajudam o utilizador a reconhecer os batimentos cardíacos através do estetoscópio (opcional). Desligamento automático após 1 minuto sem sinal.

DM325
Digital aneroid sphygmomanometer

TECHNICAL FEATURES

DEVICE

Dimensions: 174 x 70,5 x 40 h mm

Weight: about 199g including batteries

Measuring method: Riva Rocci / Korotkoff

Measurement range: from 40 to 260 mmHg (blood pressure)

Accuracy: +/- 3 mmHg for systolic and diastolic pressure

Inflation: automatic

Deflation: manual

Working temperature and humidity:

+10°C to +40°C, max 85%

Storage temperature and humidity:

-20°C to +50°C, max 85%

Cuff dimension: applicable on an arm sized between 22 and 32 cm (circumference)

AC ADAPTER

Output voltage: 5V d.c. +/-5%

Max output current: 1000mA

Connector polarity: + internal

BATTERIES

Voltage: 3,7V

Capacity: 650 mAh

Model: ICR123A Li-ion RECHARGEABLE

RESPITRAIN

ST586

EN INSTRUCTION FOR USE

- 1) Inhale thoroughly until you lift as many spheres as possible.
- 2) Hold inspiration as long as possible.
- 3) Remove the mouthpiece and exhale. Repeat. For the exhalation we can also turn upside-down the respitrain.

COMPOSITION

- Transparent central part divided into 3 chambers made of copolymer and non-toxic polystyrene (each chamber expresses the inhalation value per second: 600, 900 and 1200cc)
- Non-toxic polypropylene base
- 3 non-toxic polypropylene spheres • Polypropylene tube with mouthpiece

F TROIS PHASES DE L'UTILISATION

- 1) Inspirer profondément en utilisant l'embout spécial pour soulever les sphères le plus haut possible.
- 2) Maintenir l'inspiration le plus longtemps possible.
- 3) Expirer en relâchant le bec. Répéter le procédé. Pour développer l'expiration, il ne faut que tourner l'appareil.

COMPOSITION

- Corps transparent à trois chambres en copolymère et polystyrène atoxique 600, 900 et 1200 cc par seconde: le volume de chaque chambre exprime la valeur d'inspiration par seconde.
- Base atoxique en polypropylène • 3 Sphères atoxiques en polypropylène • Tuyau atoxique avec embout en polyéthylène

ES UTILIZACIÓN

- 1) Utilizando la pieza de boca, elevar por inspiración las bolas de las tres cámaras (cuanto sea posible).
- 2) Mantener el inspiración cuanto más se pueda. 3) Expirar dejando la pieza de boca. Repetir. Para ejercitar la expiración, hay que dar la vuelta al aparato.

COMPOSICIÓN

- Aparato de tres cámaras transparentes en copolímero y poliestireno no tóxico (cada cámara se corresponde con un nivel de inspiración: 600, 900 y 1200 cc/seg) • Base en polipropileno no tóxico • 3 bolas en polipropileno no tóxico • Tubo con pieza de boca en polietileno

P INSTRUÇÕES DE USO

- 1) Inspirar profundamente utilizando o bocal adequado até fazer subir o maior número de esferas.
- 2) Manter a inspiração o maior tempo possível. 3) Expirar deixando o bocal. Repetir o procedimento.

COMPOSIÇÃO

- Parte central transparente dividida em três câmaras feita de copolímero e poliestireno atóxico (600,900 e 1200cc por segundo; o volume de cada câmara exprime o valor de expiração por segundo) • Base em polipropileno atóxico
- 3 esferas em polipropileno atóxico • Tubo com bocal em polietileno

EN GENERAL DESCRIPTION C-PAP RESPIRATORY THERAPY
F TRAITEMENT PPC
ES DESCRIPCIÓN GENERAL TERAPIA CPAP
P TERAPIA CPAP

EN Obstructive Sleep Apnea (OSA) is an intermitted and repetitive obstruction of the upper respiratory tract that completely (apnea) or partially (hypopnea) blocks the breathing airflow during sleep. The syndrome varies according to the degree of relaxation of the tongue and soft palate muscle. The most common treatment for OSA is Continuous Positive Airway Pressure (CPAP). CPAP devices can give a constant air pressure to your upper respiratory tract through a nasal mask. This constant air pressure can keep your airway open during sleep and prevent the OSA. This device permits to regulate the ramp time. This allows the patient to fall asleep comfortably while the air pressure reaches slowly the right level for the treatment. The user compliance meter records the total system's operating time for physician's reference.

WARNING! Some functioning parameters are preset according to common therapeutic requirements. We recommend to let your doctor or qualified personnel check any variation.

F L'Apnée Obstructive du Sommeil (AOS) consiste en l'obstruction intermittente et repetitive du conduit respiratoire supérieure qui entraîne un blocage complet (apnée) ou partiel (hyopapnée) de la respiration pendant le sommeil. Le syndrome varie en fonction du niveau de détente de la langue et du muscle du voile palatal. Le traitement le plus commun de l'AOS est la pression positive continue en ventilation spontanée (PPC). Les appareils de PPC peuvent fournir une pression d'air constante dans le système respiratoire supérieur grâce à un masque nasal. La pression d'air constante peut ouvrir les voies respiratoires pendant le sommeil et par conséquent éviter l'AOS. Le réglage du rampe et le fonctionnement silencieux permet au patient de dormir pendant la pression augmente progressivement jusqu'à la pression du traitement. Le compteur d'utilisation enregistre les paramètres d'utilisation total qui serviront de référence au médecin.

ATTENTION! Certains paramètres de fonctionnement sont pré-programmés en fonction des besoins thérapeutiques standards. Vous devez consulter votre médecin ou un personnel qualifié pour toute variation.

ES La Apnea Obstructiva del Sueño (AOS) es una obstrucción intermitente y repetitiva del sistema respiratorio de las vías superiores que bloquea totalmente (apnea) o parcialmente (hipopnea) el flujo de aire durante del sueño. El síndrome puede variar dependiendo del grado de relajación de la lengua y del músculo del paladar blando. El tratamiento más habitual para la OSA es la Presión Positiva Continua de las vías respiratorias (CPAP, de sus siglas en inglés, Continuous Positive Airway Pressure). Los aparatos de CPAP tienen la posibilidad de suministrar una presión de aire constante a la vía aérea superior a través de una máscara nasal. Esta presión de aire constante puede mantener las vías respiratorias abiertas durante del sueño, evitando así la OSA. En este aparato se puede ajustar el tiempo de rampa permitiendo al paciente de dormirse mientras se va incrementando la presión del aire hasta el grado requerido por el tratamiento. El medidor de registro del usuario sirve para registrar el tiempo de funcionamiento total del sistema para referencia del médico.

ATENCIÓN! Algunos parametros de funcionamiento son preprogramados según los requisitos terapéuticos comunes. Recomendamos de consultar al médico o a personal calificado por cualquier variación.

P A Apnéia Obstrutiva do Sono (AOS) é um episódio no qual a obstrução repetitiva e intermitente do tracto respiratório superior provoca o cese completo (apnéia) ou parcial (hipo apnéia) da respiração durante o sono. A síndrome varia em função do grau de relaxação da língua e do músculo tensor do véu palatino. O tratamento mais comum da AOS é a Pressão Positiva Contínua das Vias Respiratórias (CPAP). Os dispositivos CPAP fornecem uma pressão de ar constante às vias respiratórias superiores através de uma máscara nasal. Esta pressão constante de ar pode manter as vias respiratórias abertas durante o sono, evitando assim a AOS. Neste aparelho o tempo de rampa ajustável e o funcionamento ultra silencioso permite ao paciente de adormentar-se enquanto a pressão do ar se dirige suavemente até o nível de tratamento. O registro de tempo de uso recolhe o tempo total de funcionamento para referência do médico.

ATENÇÃO! Alguns parâmetros de funcionamento são pré-programados segundo os requisitos terapêuticos comuns. Recomendamos consultar o médico ou pessoal qualificado para qualquer variação.

ES ELECTROTERAPIA ULTRASONIDOS MULTIFRECUENCIA 1/3MHZ *Unisonic*

P ELETROTERAPIA DE ULTRA-SONS DE MULTIFREQÜÊNCIA 1/3MHZ *Unisonic*

EN Unisonic allows a continuous or pulsated emission which can be set at 25, 50, 75 or 100%. The Unisonic device is electronically controlled by a microprocessor and offers memorized programmes. The device is supplied with multi-frequency transducing handle (1 or 3 MHz frequencies can be chosen). The transducing handle can be used only with this device. It means as a personalized component. It can be used also under water (IP67)

F La puissance de sortie du Unisonic peut être continue ou à pulsation avec modulation de 25, 50, 75 ou 100%. L'appareil est complètement géré et contrôlé par un microprocesseur. Possibilité de sélectionner un paramètre ou d'utiliser un des programmes déjà mémorisés. Il est doté d'une tête de traitement (poignée) à multifréquence, de 1 à 3Mhz. Cette poignée en dotation peut être utilisée seulement avec cet appareil, elle est apte au traitement à immersion (IP67)

ES La emisión de Unisonic puede ser continua o pulsada, con modulación seleccionable de 25, 50, 75 y 100%. El equipo es controlado completamente por un microprocesador. Hay la posibilidad de seleccionar un parámetro o de utilizar los programas predefinidos. El aparato incluye un cabezal multifrecuencia de 1 a 3 Mhz. El equipo se puede utilizar solamente con el cabezal en dotación. El cabezal se puede utilizar para tratamientos en inmersión (IP67)

P O modo de emissão pode ser contínuo ou pulsado com modulação de 25, 50, 75 e 100%. O aparelho é completamente controlado por um microprocessador. Possibilidade de selecionar um parâmetro ou de utilizar programas memorizados. O aparelho inclui um transdutor multifrequência de 1 a 3 Mhz, que pode ser utilizado somente nesse aparelho. O transdutor é utilizável para tratamentos a imersão (IP67)

F ÉLECTROTHERAPIE PROFESSIONNELLE *Laser plus*
ES ELECTROTERRAPIA PROFESIONAL *Laser plus*
P ELETROTERRAPIA PROFISSIONAL *Laser plus*

EN Laser Plus is a control device for diodic transducers of the monochromatic laser light (close to infrared) ($\lambda=905\text{nm}$). The device is electronically controlled by a microprocessor and presents 1 output conduit. The device offers memorized programmes or various parameters can be selected. The programmes get modified automatically according to the selected power of the transducing handle. The device is equipped with security control system that automatically deactivates the radiation in case of lack or mistaken positioning of the handle. The device, supplied with a mono-diodic handle of 30W, can operate also with various handles, different in power and number of laser emitters

F Laser Plus est un appareil de contrôle pour des émetteurs diodes de lumière monochromatique laser (presque infra-rouge) ($\lambda=905\text{ nm}$). L'appareil est complètement géré et contrôlé par un microprocesseur, il est doté de 1 sortie. Possibilité de sélectionner un paramètre ou d'utiliser un des programmes déjà mémorisés qui s'adaptent automatiquement selon la puissance de la sonde connectée. L'appareil est doté d'un système de sécurité (il faut l'actionner) avec désactivation automatique du rayonnement laser en cas d'un positionnement manqué ou incorrect de la sonde. Il est doté d'une sonde monodiode à 30W. Laser plus est apte à divers types de sonde, avec puissance et numéro d'émetteurs laser différents

ES Laser Plus es un equipo de control para transmisores diódicos de luz monocromática laser, que emiten cerca del infrarojo ($\lambda=905\text{ nm}$). El equipo es controlado completamente por un microprocesador y tiene 1 canal de salida. Hay la posibilidad de seleccionar un parámetro o de utilizar los programas predefinidos que se adaptan automáticamente a la potencia del cabezal conectado. El equipo tiene un sistema de seguridad (hay que activarlo) que desactiva automáticamente la radiación laser en caso de error en el posicionamiento del cabezal. Laser Plus está equipado con un cabezal monodiodico de 30W, pero puede funcionar con cabezales de distintas potencias y números de emisores laser

P Laser Plus é um aparelho de controle para emissores diódicos de luz monocromática laser (próximo ao infravermelho) ($\lambda=905\text{ nm}$). O aparelho é completamente controlado por um microprocessador e apresenta 1 canal de saída. Possibilidade de selecionar um parâmetro ou de utilizar programas já memorizados que se adaptam automaticamente de acordo com a potência do transdutor conectado. O aparelho possui um sistema de segurança (ativável) que desativa automaticamente a radiação laser em caso de falha ou erro no posicionamento do transdutor. Laser plus é equipado com um transdutor monodiodico de 30W, mas também funciona com outros tipos de transdutores, diferentes em potência e número de emissores laser

ES ELECTROTERRAPIA PROFESIONAL *Magnetofix 30* Y *Magnetofix 80*
P ELETROTERRAPIA PROFISSIONAL *Magnetofix 30* E *Magnetofix 80*

EN Magnetofix are two devices for low-frequency magnetotherapy. The maximum intensity field is 30 Gauss (for MAGNETO 30) and 80 Gauss (for MAGNETO 80). The device includes a square-wave current generator with variable frequency from 2 to 100 Hz. Also the period of the impulse is variable. In this way it is possible to obtain a pre-determined and selectionable intensity of the field from 5 to 30 Gauss (MAGNETO 30) and from 10 to 80 Gauss (MAGNETO 80). The device includes a visual and acoustic magnetic field. Two flat transducers can be connected to the device. In this way, the field generated by a single transducer, is the half of the total one. The two polarities North (N) and South (S) are indicated on the transducers. MAGNETOFIX 80 is equipped with 30 pre-set programs

F Magnetofix sont des appareils pour magnéto thérapie à basse fréquence. Le champ magnétique maximum est de 30 Gauss (MAGNETO 30) et 80 Gauss (MAGNETO 80). L'appareil est incorporé d'un générateur de courant électrique à onde carrée. La fréquence est réglable de 2 à 100 Hz et la durée de l'impulsion l'est également de façon à obtenir une intensité du champ pré-programmable de 5 à 30 Gauss (MAGNETO 30) et de 10 à 80 Gauss (MAGNETO 80). Un détecteur de champ magnétique sonore et visuel est incorporé à l'appareil. Il est possible de connecter simultanément deux transducteurs plats à l'appareil. Naturellement, dans ce cas, le champ généré par l'un des transducteurs correspond à la moitié environ du champ total. La polarité du champ magnétique Nord (N) et Sud (S) est indiquée sur les transducteurs afin de pouvoir les utiliser séparément ou avec un champ magnétique couple. MAGNETOFIX 80 est doté de 30 programmes déjà mémorisés

ES Los equipos Magnetofix son para magnetoterapia a frecuencia baja. El campo magnético máximo es de 30 Gauss (para MAGNETO 30) y de 80 Gauss (para MAGNETO 80). El aparato incluye un generador de corriente eléctrica a onda cuadrada con frecuencia variable de 2 a 100 Hz y duración del impulso variable y seleccionable de 5 a 30 Gauss (MAGNETO 30) y de 10 a 80 Gauss (MAGNETO 80) para obtener una intensidad de campo predefinida. El aparato incluye un detector de campo magnético sonoro y visual. Hay la posibilidad de conectar contemporáneamente 2 cabezales llanos al aparato; en este caso el campo producido por un cabezal es la mitad del total aproximadamente. Las dos polaridades Norte (N) y Sur (S) están indicadas en los cabezales para poderlos utilizar singularmente o con un campo magnético concatenado. MAGNETOFIX 80 tiene 30 programas predefinidos

P Magnetofix são aparelhos para magnetoterapia de baixa frequência. O campo magnético máximo é de 30 Gauss (MAGNETO 30) e 80 Gauss (MAGNETO 80). O aparelho inclui um gerador de corrente elétrica de onda quadrada com frequência variável de 2 à 100 Hz e duração do impulso variável de modo a obter uma intensidade de campo pré-determinada e selecionável de 5 à 30 Gauss (MAGNETO 30) e de 10 à 80 Gauss (MAGNETO 80). O aparelho possui um detector de campo magnético sonoro e visual. É possível conectar simultaneamente dois transdutores planos ao aparelho. Naturalmente, nesse caso, o campo gerado por um único transdutor corresponde à metade do campo total. As duas polaridades Norte (N) e Sul (S) são indicadas nos transdutores a fim de poder utilizá-los separadamente ou com um campo magnético concatenado. MAGNETOFIX 80 é fornecido com 30 programas pré-configurados

F BISTOURI ÉLECTRIQUE POUR CHIRURGIE MONOPOLAIRE ET BIPOLAIRE À HAUTE FREQUENCE
ES ELECTROBISTURÍ PARA CIRUGÍA MONOPOLAR Y BIPOLAR DE ALTA FRECUENCIA
P BISTURI ELÉTRICO PARA CIRURGIA MONOPOLAR E BIPOLAR DE ALTA FREQUÊNCIA

EN Simultaneous monopolar and bipolar surgery, double channel for monopolar modality and, one singular channel for bipolar modality. Operation modalities and the output controls selection with iconographic description. All the indications of operative condition and of selected output level are digital bright.

The monopolar cut can be performed by pure sine current or by modulation to obtain an incision with a minimum damage for the tissues and sure recovery. Defibrillator use allowed while the reference plate is connected

F Bistouri électronique à radiofréquence peut être utilisé pour les chirurgies monopolaire et bipolaire simultanément, deux canaux pour la chirurgie monopolaire et un canal pour la chirurgie bipolaire. La sélection des modalités de fonctionnement se fait simplement au moyen de poussoirs munis d'une description iconographique. Toutes les indications de l'état opératoire et du niveau de sortie sélectionné sont lumineuses et digitales. La possibilité d'utiliser le courant sinusoïdal pur et la modulation permet d'obtenir une incision provoquant le minimum d'endommagement des tissus adjacents et une guérison sûre comme première intention. Il est possible d'utiliser le défibrillateur avec la plaque de référence reliée au patient

ES Bisturí electrónico de radiofrecuencia, se puede utilizar para cirugía MONOPOLAR y BIPOLAR simultáneamente con DOS CANALES PARA CIRUGÍA MONOPOLAR Y UN CANAL PARA CIRUGÍA BIPOLAR. Las modalidades de funcionamiento se seleccionan con los botones que llevan una descripción iconográfica. Las indicaciones de las condiciones de funcionamiento y del nivel de salida son luminosas y digitales. La posibilidad de utilizar corrientes sinusoidales puras permite de operar con el menor daño posible en los tejidos y menor tiempo de curación. Se puede utilizar el desfibrilador con la placa de referencia conectada al paciente

P Bisturi elétrico a radiofrequência. Pode ser utilizado para efetuar simultaneamente cirurgias monopolar e bipolar com dois canais para a cirurgia monopolar e um para a cirurgia bipolar. A seleção das modalidades de funcionamento é feita por um botão que contém uma descrição iconográfica da função. Todas as indicações do estado operativo e o nível de saída selecionados são indicados por escritas digitais luminosas. A possibilidade de utilizar a corrente sinusoïdal pura e a modulação permite obter uma incisão com o menor dano para os tecidos e um menor tempo de recuperação. É permitido o uso do desfibrilador enquanto a placa de referimento estiver conectada ao paciente

F OXYMÈTRE DE POULS DOIGTIER ADULTE ET ENFANT
ES PULSIOXÍMETRO DE DEDO ADULTO Y PEDIÁTRICO
P OXÍMETRO DE DEDO ADULTO E PEDIÁTRICO

EN Simple, small, light-weight (50 gr. with batteries), easy to carry. Low battery signal. Automatic turning-off after 8 seconds without signal. Putting the finger in the sensor, the pulse oximeter will give you the oxygen saturation and the pulse rate in few seconds. 2 AAA batteries guarantee 30hrs measurements. A string to carry the device is provided. **Included:** instruction manual, batteries. Rubber protective cover (LDR196).

F Simple, petit, léger (50g avec les batteries), facile à transporter. Alarme visuelle pour basse puissance des piles. Extinction automatique après 8 secondes sans signal. Il suffit d'insérer un doigt dans l'oxymètre pour avoir en quelques secondes les valeurs d'oxymétrie et les pulsations par minute. Alimentation 2 piles AAA pour une autonomie de 30 heures en continu. Bandoulière de portage incluse. **Livré avec:** mode d'emploi, piles. Protection en caoutchouc (LDR196).

ES Simple, pequeño y ligero (50 gr. con batería), fácil para transportar. Indicador de estado de batería. Desconexión automática después de 8 segundos sin utilizar. Es suficiente poner el dedo dentro del pulsioxímetro para obtener saturación de oxígeno y pulso por minuto. Alimentación con 2 pilas AAA por una autonomía de 30 horas. Cordon para colgar. **Incluye:** manual de instrucciones, baterías. Funda en goma (LDR196).

P Simples, pequeno, leve (50 gr. com bateria), fácil de transportar. Indicador do nível da bateria. Desligamento automático após 8 segundos sem sinal. Basta colocar o dedo no sensor para obter em poucos segundos os valores da saturação de oxigênio e da pulsação. Duas baterias tipo AAA garantem 30 horas de medições. Incluso um cordão para carregar o aparelho. **Na embalagem:** manual de instruções, baterias. Capa de borracha (LDR196).

EN Small, lightweight, SpO₂ and pulse rate measuring and storage. Suitable for sports use, for monitoring adults and children in hospitals, ambulatory and studying sleep disorders. **It includes:** 1 AAA battery-1 SpO₂ sensor-1 wristband-instruction manual.

F Petit, léger, affichage et mémoire de SpO₂ et BPM. Apte à l'utilisation sportive, à l'utilisation en hôpitaux, cliniques, à étudier les troubles du sommeil. Pour adultes et enfants. **Livré avec:** 1 pile AAA- 1 capteur SpO₂- 1 bracelet - 1 mode d'emploi

ES Pequeño y ligero, con medición y memorización de SpO₂ y pulso. Apto para uso deportivo, para la monitorización de adultos y niños en hospitales, clínicas, y para estudiar las disfunciones del sueño. **Incluye:** 1 pila AAA- 1 sensor SpO₂- 1 brazalete - 1 manual de instrucciones.

P Pequeno e leve, com medição e memorização de SpO₂ e pulsação. Adequado para uso esportivo, para a monitoragem de adultos e crianças em hospitais, clínicas, e para estudar as perturbações do sono. **Na embalagem:** 1 pila AAA- 1 sensor SpO₂- 1 pulseira - 1 manual de instruções.

LTD840P ADULT - PEDIATRIC

TECHNICAL FEATURES LTD840P

Use: Adult-pediatric
SpO₂: 0% -99%
SpO₂ accuracy: from 80% to 100% ±2, from 70% to 79% ±3
Pulse rate: 0÷254 bpm
Pulse rate accuracy: 30 ÷100 ±2 bpm, 101÷235±2%
Display: LCD
Parameters: SpO₂, pulse rate, pulse rate on bar

Display information: SpO₂, pulse rate, pulse rate on bar, disconnected sensor, no finger contact, full memory, low battery, 2 errors
Data transmission: cable and USB
Dimensions: mm60x50x20h
Weight: 26gr
Batteries: 1xAAA alkaline or 1xAAA rechargeable
Alarms: SpO₂, PR, disconnected sensor
Alarm modes: visual

LTD840S MEDVIEW SOFTWARE FOR LTD840P (OPTIONAL) ENGLISH LANGUAGE

EN The software can be used with more oximeters without additional licences. It allows to download many patients' stored SpO₂ and pulse rate data, beginning and end time. They can be visualized as graphic or data list (time, SpO₂ and Pulse Rate).

It includes: 1 CD -1 instruction manual - 1 USB key (for software protection).

F Le software peut gérer plusieurs oxymètres sans licences ultérieures. Il permet de télécharger les données enregistrées de la saturation et du pouls de plusieurs patients avec la date et l'heure de début et fin. Les données peuvent être visualisées en graphique ou comme liste de données (heure, saturation et pouls). **Livré avec:** 1 CD- 1 mode d'emploi-1 clé USB de protection.

ES El software puede gestionar más pulsioxímetros sin necesitar licencias adicionales. Permite de descargar los datos de SpO₂ y pulso de distintos pacientes con fecha y hora de inicio y fin. Los datos pueden visualizarse en gráfico o listado de datos (hora, SpO₂ y pulso). **Incluye:** 1 CD - 1 manual de instrucciones - 1 lapicero USB (para la protección del software).

P O software pode gerenciar diversos oxímetros de pulso sem licenças posteriores. Permite descarregar os dados de SpO₂ e pulsação de pacientes diferentes com data e hora de início e fim. Os dados podem ser visualizados em forma de gráfico ou lista de dados (hora, SpO₂ e pulsação). **Na embalagem:** 1 CD- 1 manual de instruções- 1 chave USB (para a proteção do software).

EN SEIVA EKG allows to transmit data from the patient to the pc using an USB cable. It allows the user to monitor, store and print data. SEIVA EKG records are saved by a SEIVA database together with other diagnostic examinations. All records can be recalled and modified. The 12 leads are simultaneously recorded and monitored in real time. The most interesting datas can be saved for a further analysis. The ECG allows to measure curves automatically or manually, and it suggests the diagnosis automatically. It gives an overview of the curves before their storage. SEIVA EKG uses standard A4 paper.

F SEIVA EKG permet la lecture en temps réel des données du patient sur PC, par un câble USB. Monitorage, mémorisation, impression et stockage des données. La database SEIVA fait le stockage des données avec d'autres examens diagnostiques. Les données peuvent être visualisées et modifiées. Stockage de 12 dérivation simultanées. Mémoire des données plus importantes pour une analyse ultérieure. Mésuration automatique ou manuelle des courbes, avec la suggestion automatique du diagnostic. Affichage des courbes avant du stockage. Impression: papier A4 standard.

ES SEIVA EKG permite la transmisión de los datos del paciente hasta el ordenador a través de un cable USB. Permite monitorizar, almacenar y imprimir los datos. La base de datos SEIVA almacena los datos juntos a otros exámenes diagnósticos. Los datos se pueden visualizar y modificar. Registra las 12 trazas simultáneamente y las monitoriza en tiempo real. Los datos más interesantes pueden almacenarse por un análisis posterior. El ECG permite la medición automática o manual de las curvas, y sugiere un diagnóstico automáticamente. Permite la visualización de las curvas antes del almacenamiento. Imprime con papel A4 estándar.

P SEIVA EKG consente a transmissão direta dos dados do paciente ao computador, através de um cabo USB. O usuário pode monitorar, memorizar, armazenar e imprimir os dados do ECG. A base de dados SEIVA faz o armazenamento de dados juntamente com outros exames diagnósticos. Esses dados podem ser visualizados e modificados. Registra os 12 traçados simultaneamente e os monitora em tempo real. Os dados mais interessantes podem ser memorizados para uma análise posterior. O ECG consente a medição automática ou manual das curvas e sugere um diagnóstico automaticamente. Visualização das curvas antes do armazenamento. Impressão com papel A4 standard.

TECHNICAL FEATURES LTD450

Circuit:	protection from defibrillation and pace maker
Lead:	standard 12 leads
Acquisition mode:	12 leads simultaneously
A/D converter:	12 bits
Input Voltage Range:	±5 Vpp
Sensitivity:	2,5-5-10,20,10/5 ACG (mm/mV)
Input Impedance:	50 Mohm (10 Hz)
Input circuit current:	< 50nA
Noise level:	< 12µ Vp-p
Anti baseline drift:	automatic
Filters:	EMG filter 25Hz/35Hz/ 45Hz/OFF
DFT filter:	0.05/0.15/0.25/0.5 Hz
Lowpass filter:	A/C 50 Hz/60Hz
CMRR:	> 110dB
Recording mode:	auto/manual/rhythmic
Rhythm lead:	single lead or 3 leads selectable
Safety:	class "P", "CF" type
Power supply:	AC100V-240V, 50-60Hz
Battery:	built-in Li-ion, 14.4V
Printer:	thermal printer
Recorder paper:	Z-fold and roller (210/216h)
Dimensions:	420x330x105mm
Display:	320x240 single colour LCD
Input:	> 100 K Mohm
Output:	< 100 Mohm
Communication interface:	RJ45(Ethernet), RS232, USB

CO150 Optional ECG trolley

TONO TRACK

Ambulatory blood pressure monitor
 24-28 hours measurements
 Resistance against artefacts
 Oscillometric technique
 Easy operation
 Silent running

TECHNICAL FEATURES

Measurement technique:	oscillometric with step deflation
Measurement range:	25-260mmHg (max inflation 280 mmHg)
Statistical accuracy:	+/- 3mmHg
Power source:	3V DC, 2pcs 1,5 "AA" alkaline batteries or rechargeable NiMH
Dimensions:	120x80x32 mm(without cables)
Weight:	350 gr (including batteries)
Cuffs included:	adult (23-33cm), large (31-40cm)
Operation system requirements:	MS win 98/XP

TECHNICAL SPECIFICATIONS

Easy to use thanks to info showed on the main display;
Charging and working environmental requirements
Temperature: 0°-40°C
Humidity: 5%-90% not condensed
Size: 82mm x 220 mm x 281 mm
Weight: 2.2 kg with battery pack installed
Operating Mode: semi-automated
Waveform: e-cube biphasic (Truncated exponential type) impedance compensated
Energy: 200 Joules nominal into a 50Ω load
Shock Energy Accuracy: Within ±3% (150J into 50Ω)
Charge Control: Automatic by Software (Arrhythmia Detection System and Charging Control)
Charge time from "Shock Advised": < 14 seconds, typical

Shock to Shock cycle time: < 15 seconds, typical, including analysis
Battery Type: 12 Volt DC, 4,2 Ah, lithium manganese dioxide, disposable long-life primary cell
Capacity: Minimum 200 shocks or 4 hours of operating time.
Temperature: -40 °C to 60 °C
Defibrillator Pads: (CUA0512F)
Type self-adhesive, disposable, non-polarized defibrillation pads
Adult Pads: Defibrillation pads for patients 8 years of age and older or 55 lbs. (25 kg) and over.
Surface Area: Adult, 110cm² each
Cable Length: 1,5m

TECHNICAL FEATURES FOR LTD700

ECG Monitor

Patient connection: Defibrillation Pads, ECG Electrodes

Bandwidth: 0.30 to 40 Hz (-3 dB)

EMS Mode: 1~30 Hz Heart rate. Digital 30 to 300 bpm ($\pm 2\%$)

ECG size

10mm/mV display on monitor (auto-scaling)

Cardiac frequency: digital from 30 to 300 bpm ($\pm 2\%$)

Defibrillator

Operating mode: Semi Automatic

Waveform: e~cube Biphasic (BTE type)

Energy

150J into a 50 Ω load (default setting) and pre-programmed selection (150J-150J-150J, 150J-150J-180J, 150J-180J-180J)

AED mode: 150J into a 50ohm load

Synchronous Cardioversion: Energy deliver begins within 60ms of the QRS peak

Charging time: Less than 10 seconds

Sensitivity & Specificity: Meets AAMI guidelines

Detection Level: > 0.1 mV ECG

Defibrillation Electrodes: Multifunctional electrodes (Disposable), Adult adhesive pads (Pre-gelled)

Voice and Text Prompts

Voice and text prompts guide

User interfaces are supported in local language for easy use

Data Storage Management

Internal flash memory: 12 hours of event and ECG recording

SmartMedia Card (32M): 48h of event and ECG recording

1h if voice recording is enable

Review the patient's ECG, incident details and the device information

Transmit multi patient data to PC

Automatic Self-Test

Power On Self-Test / Run Time Self-Test / Manual Test

Periodic Self-Tests (daily / weekly / monthly)

Display

Screen Type: High resolution display (Graphic LCD)

Screen size: 4 inches (10.16 cm) diagonal, 320x240 pixels

Sweep speed: 25mm/sec, nominal

Viewing time: 3.2 seconds

Dimensions and Weight

Size: 305 mm x 250 mm x 95 mm (LxWxH)

Weight: Approximately 2.8 Kg

Patient Isolation

Type BF

- Charge Time: Adapter : Less than 5 seconds to 200Joules
- Battery : Less than 7 seconds to 200Joules

AED Mode:

- 12 leads simultaneously
- Output Energy: 200J
- Shock Delivery: Via multifunction defib electrode pads
- AED Develop Guideline: AAMI DF-80 guidelines
- Voice & Text Prompt: Guide the user through the protocol via multifunction defibrillator electrode pads
- Manual Mode
- Output Energy(Selected) 1~10J, 15J, 20J, 30J, 40J, 50J, 100J, 120J, 150J, 170J, 200J
- Shock Delivery: External Paddle (with Pediatric) / Internal Paddle
- Synchronous Cardioversion

Printer:

- Continuous ECG Strip: Real-Time (8 seconds delay)
- Auto Printing: Recorder can be configured to print marked event, charge, shock And alarms
- Printing Speed: 25mm/s

Paper:

50mm Width / 40mm Diameters

Automatic Self-Test:

- Power on Self-Test
- Run Time Self-Test
- Manual Self-Test
- Periodic Self-Test(Daily/Weekly/Monthly)

Power Source:

- External Battery Pack : Lithium Polymer
- Type: 14.8V 3.1Ah (Rechargeable)
- Capacity: When new, minimum of 100shock deliveries (200J)
- Output: 18V, 6A

Noninvasive Pacing:

- Waveform: Monophasic Truncated Exponential
- Mode: Demand and Fixed Mode
- Amplitude Accuracy: 0 ~ 200mA (5mA)
- Pulse Width: 20ms(1.5%)
- Pulse Rate: 30 ~ 180ppm (1.5%)
- Refractory Period: 340 msec (30 to 80 ppm)
- 240 msec (90 to 180 ppm)

SpO2 Pulse Oximetry:

- Saturation: 70 ~ 100%(3digits)
- Pulse Rate: 20 ~ 250bpm(3bpm)
- Perfusion: 0.2%

- Module Manufacturer: Nellcor

- SpO2 Alarm

NIBP: OPTIONAL - On request

- Type: adult, pediatric, Neonate

- Method: Oscillometric

- Control: automatic and manual measurements

- Visualized pressures: Systolic, Diastolic, Mean mmHg

Data Storage:

External memory card

ECG Monitoring:

- Input: 3-Lead Cable : I, II, III

- 5-Lead Cable : I, II, III, aVR, aVL, aVF or V

- 10-Lead Cable : I, II, III, aVR, aVL, aVF or V1, V2, V3, V4, V5, V6

- (Display View:All 12-Lead ECG waves display simultaneously)

- Heart Rate Display: 30 to 300 bpm (3bpm)

- ECG Size: 5, 10, 20mm/mV and Auto-gain

- Heart Rate/Arrhythmia Alarm: HR, Asystole, VF, VT

Anti-electroshock degree:	SpO ₂ , NIBP, BF Defibrillation type
Ingress Protection:	IPX0
Size:	173.5 (L) × 241 (H) × 189 (D) mm
Weight:	3 kg

WORKING CONDITIONS

Working Temperature:	5 ~ 40 °C
Power Supply:	100 ~ 240 VAC, 50/60Hz, Pmax = 45VA FUSE T 1.6AL
Display :	5.7 inches LCD, Resolution 320×240 Risoluzione 320×240, LED retroilluminazione

Messages:	1 Power Supply Indicator LED (Green) 1 Power On Indicator LED (Green) 1 Alarm Indicator LED (Orange/ Red) 1 Charge Indicator LED (Yellow) 1 Alarm Sound Indicator LED (Backlight) 1 NIBP Working Status Indicator LED (Backlight) 3 Sound Modes correspond to Alarm Mode
------------------	--

BATTERY

Quantity	1
Type	Li battery
Power-off delay	5 ~ 15min (After the low battery alarm)
Voltage	14.8 VDC
Capacitance	4, 400 mAh
Working period	600min (at 25°, continuous SpO ₂ measuring, NIBP automatic measuring mode, automatic recording per 10min)
Rechargeable period	< 300min

PRINTER

Record Width	48 mm
Paper Speed	25mm/s
Recording types	Current displayed parameter list recording Current displayed alarm list recording Real-time 8s waveform recording
Trend List Recall	72 hours, 1 minute Resolution
NIBP Measurement Recall	30, 000 NIBP measurement data
Alarm List Recall	800 groups

NIBP

Method	Oscillometric
Mode	Manual, Auto, Continuous

MEASURING INTERNAL

Measuring Interval in AUTO Mode	1/2/3/4/5/10/15/30/60/90/120/240/480 min
Continuous	5min, interval is 5s
Measuring Type	Systolic Pressure, Diastolic Pressure, Mean Pressure

MEASURING RANGE

Adult Mode	SYS	40~270mmHg
	DIA	10~215mmHg
	MAP	20~235mmHg
Pediatric Mode	SYS	40~200mmHg
	DIA	10~150mmHg
	MAP	20~165mmHg
Neonatal Mode	SYS	40~135mmHg
	DIA	10~100mmHg
	MAP	20~110mmHg

PULSE RATE

Cuff Pressure measuring Range	0 ~ 290mmHg
Pressure Resolution	1mmHg
Maximum mean error	5 mmHg
Maximum Standard deviation	8 mmHg
Entire Measuring Period	30 ~ 45s typical (depend on HR/motion disturbance)
Overpressure protection	Dual overpressure protection Adult 297±3mmHg Pediatric 240±3mmHg Neonatal 145±3mmHg

SpO₂

Measuring Range	0 ~ 100 %
Alarm Range	0 ~ 100 %
Resolution	1 %

CO150
Trolley (optional)

Accuratezza

Accuracy	
Adult (including Pediatric)	±2 digits (70%~100% SpO ₂) Undefined (0~70% SpO ₂)
Neonate	±3 digits (70%~100% SpO ₂) Undefined (0~70% SpO ₂)

PULSE RATE

Measuring and Alarm Range	20 ~ 254 bpm
Resolution	1 bpm
Accuracy	± 3bpm Under Motion Condition, ±5 bpm
Data update period	2s
Anti-motion Interference	Strong Anti-motion Interference, Anti-electrotome

- EN** MULTIPARAMETER PATIENT MONITOR - PRINTER OPTIONAL
F MONITEUR MULTIPARAMÉTRIQUE - IMPRIMANTE EN OPTION
ES MONITOR MULTIPARÁMETROS - IMPRESORA OPCIONAL
P MONITOR PACIENTE - IMPRESSORA OPCIONAL

EN ECG, SPO2, RESP, NIBP, 2-TEMP, PR can be visualized. Many different kinds of visualization. Only 6 keys for main functions (ECG, FREEZE, SILENT ALARM, PRINTING, START PRESSURE MEASUREMENT, MENU). The printer is optional but since it's built-in, it's easy to carry. Monitor created for adult, children and newborn. 7 leads ECG analysis. Arrhythmia and ST-segment analysis. 96 record hours for all the values, 500 NIBP measurement and 60 alarms. Pacemaker detection and possibility to adjust display colours and alarm values. With handle for transport.

F Visualisation de ECG, SPO2, NIBP, RESP, 2-TEMP, PR. Possibilité de sélectionner différentes visualisations. Seulement 6 touches pour les fonctions principales (ECG, FREEZE, ALARME SILENCIEUX, IMPRIMANTE, NIBP, et MENU). Imprimante intégrée en option. Utilisable sur adultes, enfants et nourrissons. Analyse de ECG à 7 tracés. Analyse d'arythmie et segment S-T. 96h de mémoire de tous les valeurs, 500 mesures NIBP et 60 événements alarme. Possibilité de sélectionner la détection du pacemaker, les différents niveaux d'alarme et les couleurs de l'écran. Poignée pour faciliter le transport.

ES Visualización de ECG, SPO2, RESP, NIBP, 2-TEMP, PR. Posibilidad de elegir entre distintas visualizaciones. Sólo 6 teclas para las funciones principales (ECG, FREEZE, ALARMA SILENCIOSA, IMPRESORA, MEDIDA DE LA PRESIÓN, MENÚ). Impresora opcional pero que se incorpora al equipo facilitando el transporte. Apto para adultos, niños y neonatos. Análisis de ECG a 7 trazas. Análisis de arritmia y segmentos ST. 96 horas de memoria de todos los valores, 500 medidas NIBP y 60 eventos de alarmas. Posibilidad de seleccionar la detección del marcapasos, los valores de alarma y los colores de la pantalla. Asa para transporte.

P Visualização de ECG, SPO2, RESP, NIBP, 2-TEMP, PR. Diversas visualizações possíveis. Somente 6 teclas para as principais funções (ECG, FREEZE, ALARME SILENCIOSO, IMPRESSORA, NIBP, MENU). Impressora integrada opcional. Para adultos, crianças e recém-nascidos. Análises de ECG à 7 traçados. Análises de arritmia e segmentos ST. 96 horas de memorização de todos os valores, 500 medições NIBP e 60 eventos de alarme. Possibilidade de selecionar a detecção de marcapassos, os níveis de alarme e as cores do display. Cômoda alça para facilitar o transporte.

TECHNICAL FEATURES
CLASSIFICATION

Anti-electroshock type: Class IBF equipment and internal powered equipment
Class A

EMC type: ECG (RESP), TEMP, IBP, CO₂ CF

Anti-electroshock degree: SpO₂, NIBP, CO₂, GAS BF

Ingress Protection: IPX1

Weight: 5 kg

Size: 320x150x265mm

DISPLAY

Display screen: 10.4/12.1 inch, Multicolour TFT LCD,
Resolution 800×600, 1 LED

Messages:

11 Waveforms Maximum
1 Power LED (Green)
1 Alarm LED (Yellow/Red)
1 Charge LED (Yellow)
3 Sound Mode corresponding Alarm Mode

BATTERY

Quantity: 1

Type: Li battery

Power-off delay: 5 ~ 15min

Voltage: 14.8 VDC

Capacitance: 2 Ah, 4Ah (optional)

Working period: 2Ah 80min
4Ah 180min
(At 25, continuous SpO₂ measuring mode and NIBP automatic measuring mode)

Rechargeable period: 2Ah 150min
4Ah 360min
(Monitor is On or at Standby mode.)

RECORDER (Optional)

Record Width: 48 mm

Paper Speed: 25mm/S, 50mm/S

Trace: 3

Recording types: Continuous real-time recording
8 second real-time recording
Auto 8 second recording
Parameter alarm recording
Drug Calculation and titration table recording

ECG:

Lead Mode: 5 Leads (R, L, F, N, C or RA, LA, LL, RL, V)

Lead selection: 5 Leads: 2of I, II, III, AVR, AVL, AVF, V, drive lead is RL

Waveform: 5 Leads: 2 channel:

Analogic channel setup: 12 bits, 500Hz,
4 selectable plus: ×0.25, ×0.5, ×1, ×2 cm/mV
Pacing rate higher limit: >320 mV/s (RTI)

PACING REJECTION (HR report has no error)

Impulse amplitude: ±2 ~ ±700 mV

Impulse width: 0.1 ~ 2.0 ms

Ascending time: 10µs ~ 100µs less than 10 of pulse width

NIBP

SpO₂

Measuring Range: 0 ~ 100 %

Alarm Range: 0 ~ 100 %

Resolution: 1 %

ACCURACY:

Adult (including Pediatric): ±2 digits (70%~100% SpO₂)
Undefined (0~70% SpO₂)

Neonate: ±3 digits (70%~100% SpO₂)
Undefined (0~70% SpO₂)

PULSE RATE

Measuring and Alarm Range: 30 ~ 254 bpm

Resolution: 1 bpm

Accuracy: ± 3bpm
Under Motion Condition, ±5 bpm

TEMP

Channel: 2

Measuring Range: 0 ~ 50 °C

Sensor type: YSI (B series) and CF-FI

Resolution: 0.1°C

Accuracy: ±0.1°C (25 ~ 45 °C)

IBP

Channel: 2

Label: ART, PA, CVP, RAP, LAP, ICP, P1, P2

Pressure Sensor:

Sensitivity: 5 (µV/V/mmHg)

Impedance: 300 ~ 3000 (Ohm)

Static Pressure Measuring Range:

-50 ~ +300 mmHg up to 350 mmHg

Static Pressure Accuracy:

±2 % or 1mmHg which bigger

Dynamical Pressure Measuring Range:

-50 ~ +300 mmHg

Dynamical Pressure Accuracy:

±2 % or 1mmHg which bigger

Frequency Response:

d.c. ~ 15 Hz, d.c. ~ 40 Hz

MEASURING AND ALARM RANGE:

ART: 0 ~ 300 (mmHg)

PA: 6 ~ 120 (mmHg)

CVP/RAP/LAP/ICP: -10 ~ 40 (mmHg)

P1/P2: -50 ~ 300 (mmHg)

Resolution: 1 (mmHg)

LDR420 FHR PROBE ONLY FOR FETAL MONITOR DIMED

Mode: Pulsating doppler / Weight: 183g

Cable length: 3.2m

Dimensions: 90mm-65mm - Latex free

Accessories included 1 FHR probe, 1 TOCO probe, 1 events marker, 1 elastic band, 1 gel, 1 paper roll, 1.6A fusible, 1 user manual, 1 cd software, 1 RS232 cable, 1 power cable

Livré avec 1 sonde FHR, 1 sonde TOCO, 1 marqueur d'événements, 1 ceinture élastique, 1 fla con de gel, 1 bobine papier, 1 fusible 1.6A, 1 mode d'emploi, 1 cd logiciel, 1 câble RS232, 1 câble d'alimentation

Incluye 1 transductor FHR, 1 transductor TOCO, 1 marcador de eventos, 1 banda elástica, 1 gel, 1 rollo de papel, 1 fusible 1.6A, 1 manual de instrucciones, 1 cd software, 1 cable RS232, 1 cable de alimentación

Acessórios inclusos 1 sonda FHR, 1 sonda TOCO, 1 marcador de eventos, 1 cinto elástico, 1 frasco de gel, 1 rolo de papel, 1 fusível 1.6A, 1 manual de instruções, 1 cd software, RS232, 1 cabo de alimentação

TECHNICAL FEATURES

Dimensions and weight: 300X270X100h. 3,5 kg

Safety: Comply with IEC60601-1, IEC60601-1-2 EN55011, IEC1157, YY0449-2003

Electrical protection

Class I equipment without internal power supply

Protection level: FHR1, FHR2, TOCO, remote maker, fetal stimulator CLASS B

NO waterproof - No use with flammable gas presence

EMC: Group I class A

Power supply

Operating voltage: 100V-240V AC

Line frequency: 50/60 Hz

Pmax: 60VA - **Fuse:** T1.6AL

Display

3 bicolor numeric LED (green/red) for FHR and TOCO

Printer LED indicator - ON/OFF status led indicator

Audio alarm indicator (green/red)

FHR quality signal indicator (green/orange)

TOCO quality signal indicator (green/orange)

Paper

112mm- effective printing width : 104

Paper printing speed: 1cm/min, 2cm/min, 3cm/min

FHR 7 cm - FHR scaling: 30BPM/cm

TOCO 3,4 cm - TOCO scaling 25%/o,85 cm

Data accuracy: ±5% (X axis) ±5% (Y axis)

Record message: Date , Time, TOCO type, paper speed, FHR type, bed n°

Ultrasound channel

Pulsed doppler and autocorrelation technique

Impulse repetition: 2KHz - **Impulse time:** 114 usec

Ultrasound frequency: 2MHz±10%

Iob<10 mW/cm²

FHR range 50BPM-210BPM

Resolution: 1 bpm - **Accuracy:** ± 2 bpm

TOCO external

TOCO Range 0-100 , 135% strenght corresponding to 100%.

Sensitivity: 3,7µV/V/mmHg - Non-linear error ±10%

Resolution: 1%

Zero mode Auto/manual - Fetal movement maker

Manual/automatic fetal movement maker

FHR alarm

FHR alarms set up is fixed. If FHR (FHR1/FHR2/DECG) is inferior or superior to the level and time already set up, monitor will give audio/visual alarm signal

US1/US2/TOCO/FN/AMF. Impresora incorporada. De fácil utilización gracias al software para PC incluido. Teclado digital. Funciones: FHR, TOCO, movimiento fetal y reconocimiento automático del canal. Transductor de alta sensibilidad (9 cristales, 2 MHz) para una detección precisa, reducción de los falsos señales, reconocimiento FHR continuo.

P Leve, compacto, preciso. Display LCD a cores de 10.2". Visualiza as ondas e os dados numéricos contemporaneamente. 12 horas de memória. Monitoragem de gêmeos antepartum e intrapartum. US1/US2/TOCO/FN/AMF. Impressora incorporada. Fácil de usar graças ao software para PC incluso. Teclado digital. Funções: FHR, TOCO, reconhecimento automático do movimento do feto e do canal. Sonda de alta tecnologia (9 elementos, 2 MHz) permite precisão, redução de falsos sinais, contínuo reconhecimento FHR.

WATERPROF PROBES

LTD570

Folding 10.2" colour screen
 Optional dual FHR monitoring
 Software for data transmission to PC
 Signal overlap verification

It includes 2 FHR probes, 1 TOCO probe, 1 events marker, 1 elastic band, 1 gel, 1 paper roll, 1 fusible 1.6A, 1 user manual, 1 CD (software), 1 RS232 cable, 1 power cable

Livré avec 2 sondes FHR, 1 sonde TOCO 1 marqueur d'événements, 1 ceinture élastique, 1 flacon de gel, 1 bobine papier, 1 fusible 1.6A, 1 mode d'emploi, 1 cd logiciel en Anglais, 1 câble RS232, 1 câble d'alimentation

Incluye 2 transductores FHR, 1 transductor TOCO, 1 marcador de eventos, 1 banda elástica, 1 gel, 1 rollo de papel, 1 fusible 1.6A, 1 manual de instrucciones, 1 cd software, 1 cable RS232, 1 cable de alimentación

Na embalagem 2 sondas FHR, 1 sonda TOCO, 1 marcador de eventos, 1 cinto elástico, 1 frasco de gel, 1 rolo de papel, 1 1.6A fusível, 1 manual de instruções, 1 cd software em inglês, 1 cabo RS232, 1 cabo de alimentação

TECHNICAL FEATURES

Dimension: 347x330x126mm

Weight: 6 kg. approximately

Resolution: 800x480

Recorder: US/international standard

Printing speed: 1/2/3 cm/min

Fast print speed: up to 25 mm/min (stored traces)

Paper: Z-fold thermosensitive (150/152mm wide)

Ultrasound

Technique: ultrasound pulse doppler with autocorrelation

Pulse repetition rate: 2 KHz

Ultrasound frequency: 1,0 MHz \pm 10%

FHR Range: 50 bpm – 240 bpm

Resolution: 1 bpm

Accuracy: \pm 2 bpm

TOCO

TOCO Range: 0-100 relative (%)

Resolution: 1 count

Zero mode: automatic/manual

Auto Fetal Movement (AFM)

Technique: pulsed doppler ultrasound

AFM range: 0-100(%)

Resolution: 1%

Marking: manual fetal movement mark

Battery: 14,8V rechargeable Lithium-ion

Continuous working time: 4 hours

Signal interface: RS232 and Ethernet

El software WinspiroPRO permite la conexión de Spirobank II con el PC. Estimación del edad pulmonar. Prueba de provocación bronquial con curva FEV1 dosis-respuesta. Incentivos pediátricos con animaciones seleccionables. Datos y gráficos exportables por e-mail.

P Espirómetro com sensor de temperatura interna para a conversão automática BTPS. Display gráfico de alta resolução e legibilidade. Identificação dos pacientes por nome. Arquivo automático das três melhores espirometrias. Memória para 6000 testes. Oxímetro (opcional) com memória até 1000 horas de registo. Conexão Bluetooth por impressora ou por telefone celular. Não precisa de calibração. Confronto PRE e POST broncodilatador. Interpretação automática e controle de qualidade da espirometria. Software WinspiroPRO incluso para conexão com pc. Estimativa da idade pulmonar. Teste de provocação bronquial com curva dose/resposta do FEV1. Incentivos pediátricos com animações. Relatório da impressão exportável também via e-mail.

LTM203 SPIROBANK II
Standard

Accessories included

Carrying case, RS232 interface cable, 2 mouth pieces, 1 nose clamp, instruction manual, WinspiroPRO software

Livré avec

Malette de transport, câble interface RS232, 2 embouts buccaux, 1 embout nasal, mode d'emploi-logiciel, WinspiroPRO

Incluye

Bolsa de transporte, cable para interfaz RS232, 2 boquillas, 1 pieza para nariz, manual de instrucciones, software WinspiroPRO

Acessórios incluídos

Bolsa de transporte, cabo para interface RS232, 2 bocais, prendedor de nariz, manual de instruções, software WinspiroPRO

TECHNICAL FEATURES

Power supply: 4 AAA batteries mini stilo, 1.5V

Temperature sensor: semiconductor 0-45°C

Flow/volume transducer: bi-directional digital turbine

Flow/volume range: ± 16 L/s, BTPS

Volume accuracy: ± 3% or 50 mL

Flow accuracy: ± 5% or 200 mL/s

Dynamic resistance in 2L/s: <0.8 cm H₂O/L/s

Colour display: 128x64 pixel

Keyboard: 6 membrane key

Serial output and data transmission: USB, Bluetooth, modem without connection for phone connection (telemedicine application) RS 232 with optional cable

Dimensions: 60x 145 x 30 mm

Weight: 0.8 gr batteries included

Parameters: FVC, FEV1, FEV1/FVC%, FEV6, FEV1/FEV6%, PEF, FEF25%, FEF50%, FEF75%, FEF25-75%, FET, Vext, FIVC, FIV1, FIV1/FIVC%, PIF, *FVC, *FEV1, *PEF, VC, IVC, IC, ERV, FEV1/VC%, VT, VE, Rf, ti, te, ti/t-tot, VT/ti, MVV (* = Best value)

EN USB MINISPIR SPIROMETER
F SPIROMÈTRE USB MINISPIR
ES ESPIRÓMETRO USB MINISPIR
P ESPIRÔMETRO USB MINISPIR

EN Plugs directly into the USB socket on PC. No batteries and no other connection required. Easy to use. Icon-based interface. Internal temperature sensor for automatic BTPS conversion. Lung age estimation. Bronchial challenge test with FEV1 dose-response curve. It includes a series of user-selectable and amusing pediatric incentive animations. Data and graphs export also via e-mail. Automatic interpretation and quality control of measurements. It follows the latest ATS/ERS standards.

F Connexion directe au port USB de votre PC. Aucune pile nécessaire. Simple d'utilisation à l'aide d'icônes intuitifs. Capteur de température interne pour conversion BTPS automatique. Estimation de l'âge des poumons. Courbes FEV1 dose-réponse. Comparaison bronco-dilatation PRE-POST. Plusieurs animations incitatives destinées aux tests pédiatriques. Exportation des résultats de test également par e-mail. Interprétation automatique et test de contrôle de la qualité. Respect des normes ATS/ERS.

ES Se conecta directamente en el puerto USB de su ordenador. No necesita baterías de alimentación. De fácil utilización gracias a su interfaz de iconos. Sensor de temperatura para conversión BTPS. Estimación del edad pulmonar. Prueba de provocación bronquial con curva FEV1 dosis-respuesta. Comparación PRE-POST bronco-dilatación. Incluye una serie de incentivos pediátricos con animaciones seleccionables. Datos y gráficos exportables por e-mail también. Interpretación automática y control de la calidad de la espirometría. En conformidad con los nuevos estándares ATS-ERS.

P Conecta-se diretamente ao pc por USB. Não precisa de bateria. Fácil de usar graças aos ícones intuitivos. Sensor de temperatura para conversão BTPS. Fornece estimativa da idade pulmonar. Teste de provocação bronquial com curva dose-resposta do FEV1. Incentivo pediátrico patenteado com tantas divertidas animações. Relatório da impressão exportável também por e-mail. Interpretação automática e controle de qualidade da espirometria. De acordo com os novos padrões ATS-ERS.

- P** Pó composto hidrosolúvel a base de TAED e perborato

DS569 STERADROX 1000g

Decontamination and contemporaneous cleaning of surgical instruments and medical devices. **Composition:** perborate sodium, TAED, coformulants, excipients and purified water as much as will suffice for 100g. **Microbiological action:** positive and negative gram bacteria, mycobacteria, viruses (lipophilic, hydrophilic including HIV, HBV, HCV), spores.

- EN** Concentrated liquid enzymic detergent
- F** Détergent liquide enzymatique concentré
- ES** Detergente líquido enzimático concentrado
- P** Detergente líquido enzimático concentrado

DS581 SEPTOZYM 500cc

DS583 SEPTOZYM 1000cc

Suitable for the scaling and cleansing of medical (critical, semi-critical and non critical) devices contaminated by organic material. **100g of product contain active principles:** enzymic mixture 2g, non-ionic surface-active agent 48g, anionic surface-active agent 5g. **Excipients:** silicone-based anti-foam 0,6g, buffers, sol-vents, preservatives and deionized water as much as will suffice for 100g

- EN** **DISINFECTANTS FOR PREMISES** Concentrated aqueous benzalkonium chloride-based solution
- F** **DÉSINFECTION DE LOCAUX** Solution aqueuse concentrée à base de benzalconio cloruro
- ES** **DESINFECTANTES PARA AMBIENTES** Solución acuosa concentrada a base de cloruro de benzalconio
- P** **DESINFETANTES PARA AMBIENTES** Solução aquosa concentrada a base de cloreto de benzalcônio

DS591 SANIQUAT 1000cc

DS593 SANIQUAT 5000cc

Disinfection with contemporaneous cleansing of surfaces. **Composition:** benzalkonium chloride 5g, coformulants, excipients and purified water as much as will suffice for 100g. **Microbiological action:** positive and negative gram bacteria, mycobacteria, viruses.

EN Suitable for unwrapped instruments. Automatic warm-up, sterilizations and drying cycles. Stainless steel chamber, warmed-up by resistance.

F Apte à la stérilisation des instruments non emballés. Préchauffage, stérilisation et séchage automatiques. Chambre en acier inoxydable, chauffage à résistance.

ES Adecuada para la esterilización del instrumental suelto. Pre calentamiento, esterilización y secado automáticos. Cámara en acero inoxidable calentada con resistencia.

P Adequado para a esterilização de instrumentos não cobertos. Todas as fases de pré-aquecimento, ciclo de esterilização e secagem são automáticas. Câmara em aço aquecida por resistência.

AMT40 - 18L
CLASS N LOAD

Class N loads consist of unpacked ferrous instruments and thermoplastic materials

TECHNICAL FEATURES

Supplying voltage: 230 V±10% AC
Device dimensions (X,Y,Z): 442x385x500mm
Supplying frequency: 50/60 Hz
Max. absorbed power: 2000w
Type of protection: PE
Insulation class: 1

Max pressure: 2,2 Bar
Container capacity: 1,2 litres
Chamber dimension: Ø 243x320 mm
Material of the sterilization room: Inox Aisi 304
Number of trays: 4
Package dimensions: 600x540x500mm
